SUMMARY

Analytical and motivated M.S. in Engineering, Data Science student at the University of Pennsylvania with coursework and experience in data science, computer science, and economics. Proficient in Python, SQL, and Excel, with experience applying data analysis, problem-solving, and quantitative reasoning to transform raw data into actionable insights and support data-driven decisions. Seeking internship or entry-level opportunities in data science, software engineering, or related technical fields to contribute to impactful projects while continuing to build technical expertise.

EDUCATION

University of Pennsylvania, Philadelphia, PA

Master of Science in Engineering, Data Science | Expected Summer 2028 | GPA: 4.00

Relevant Interests: Data Analytics, Artificial Intelligence, Process Improvement, Business Intelligence

Arizona State University, Tempe, AZ

Computer Science Studies | Fall 2023 - Fall 2025 | GPA: 4.00

Relevant Coursework:

Operating Systems, Data Structures and Algorithms, Computer Organization/Assembly Language Programming, Object-Oriented Programming, Logic in Computer Science, Computer Systems Fundamentals, *Discrete Math Structures*, *Calculus for Engineers I and II*

Ivane Javakhishvili Tbilisi State University, Tbilisi, Georgia

Bachelor of Science, Economics (Honors) | Equivalent GPA: 4.00

TECHNICAL SKILLS AND CERTIFICATIONS

Programming Languages: Python, SQL, Java, JavaScript, C/C++

Data Analysis: Advanced Excel, Data Cleaning, Exploratory Data Analysis (EDA)

Databases: MySQL, MongoDB, NoSQL

Tools & Operating Systems: Git, GitHub, Linux/Unix, Windows

Certifications & Professional Development:

CodePath AI110 – Foundations of AI Engineering (2026)

CodePath TIP103 – Advanced Technical Interview Prep (2026)

CodePath CYB101 – Introduction to Cybersecurity (2025)

Full-Stack Web Development Certificate, UC Berkeley Extension (May 2023)

SELECTED PROFESSIONAL EXPERIENCE

Teaching Assistant — 2U | Remote | Oct 2023 - Nov 2024

- Provided technical support and troubleshooting support on full-stack development (React.js, Node.js, Git workflows) via office hours and Slack, helping 40+ students resolve coding challenges efficiently.
- Debugged code and clarified concepts, enabling students to successfully complete projects.
- Designed lessons and learning resources to strengthen students' problem-solving and software development skills.

Financial Data Analyst — Warwick Bethel | Tuxedo Park, NY | June 2016 - Oct 2018

- Automated financial reporting and data analysis processes using advanced Excel, improving reporting efficiency by over 90% while ensuring accuracy.
- Analyzed and processed financial data to support critical decision-making for global operations.
- Consolidated and validated financial data from multiple sources to improve reporting accuracy and support operational decision-making.

SELECTED PROJECTS

Portfolio Website | [GitHub Repository](#) | Fall 2023 - Present

- Created a React.js portfolio website showcasing projects, skills, and experience.
- Designed responsive, user-friendly interfaces and deployed via GitHub Pages.

P2P Vinyl & CD Resale | [GitHub Repository](#) | Spring 2023

- Built a full-stack web application supporting online buying and selling of music collections.
- Developed core marketplace functionality and collaborated within an Agile team environment.
